

RepoSense

Visualize multiple Git repositories in one place!

1. Use RepoSense to generate a report

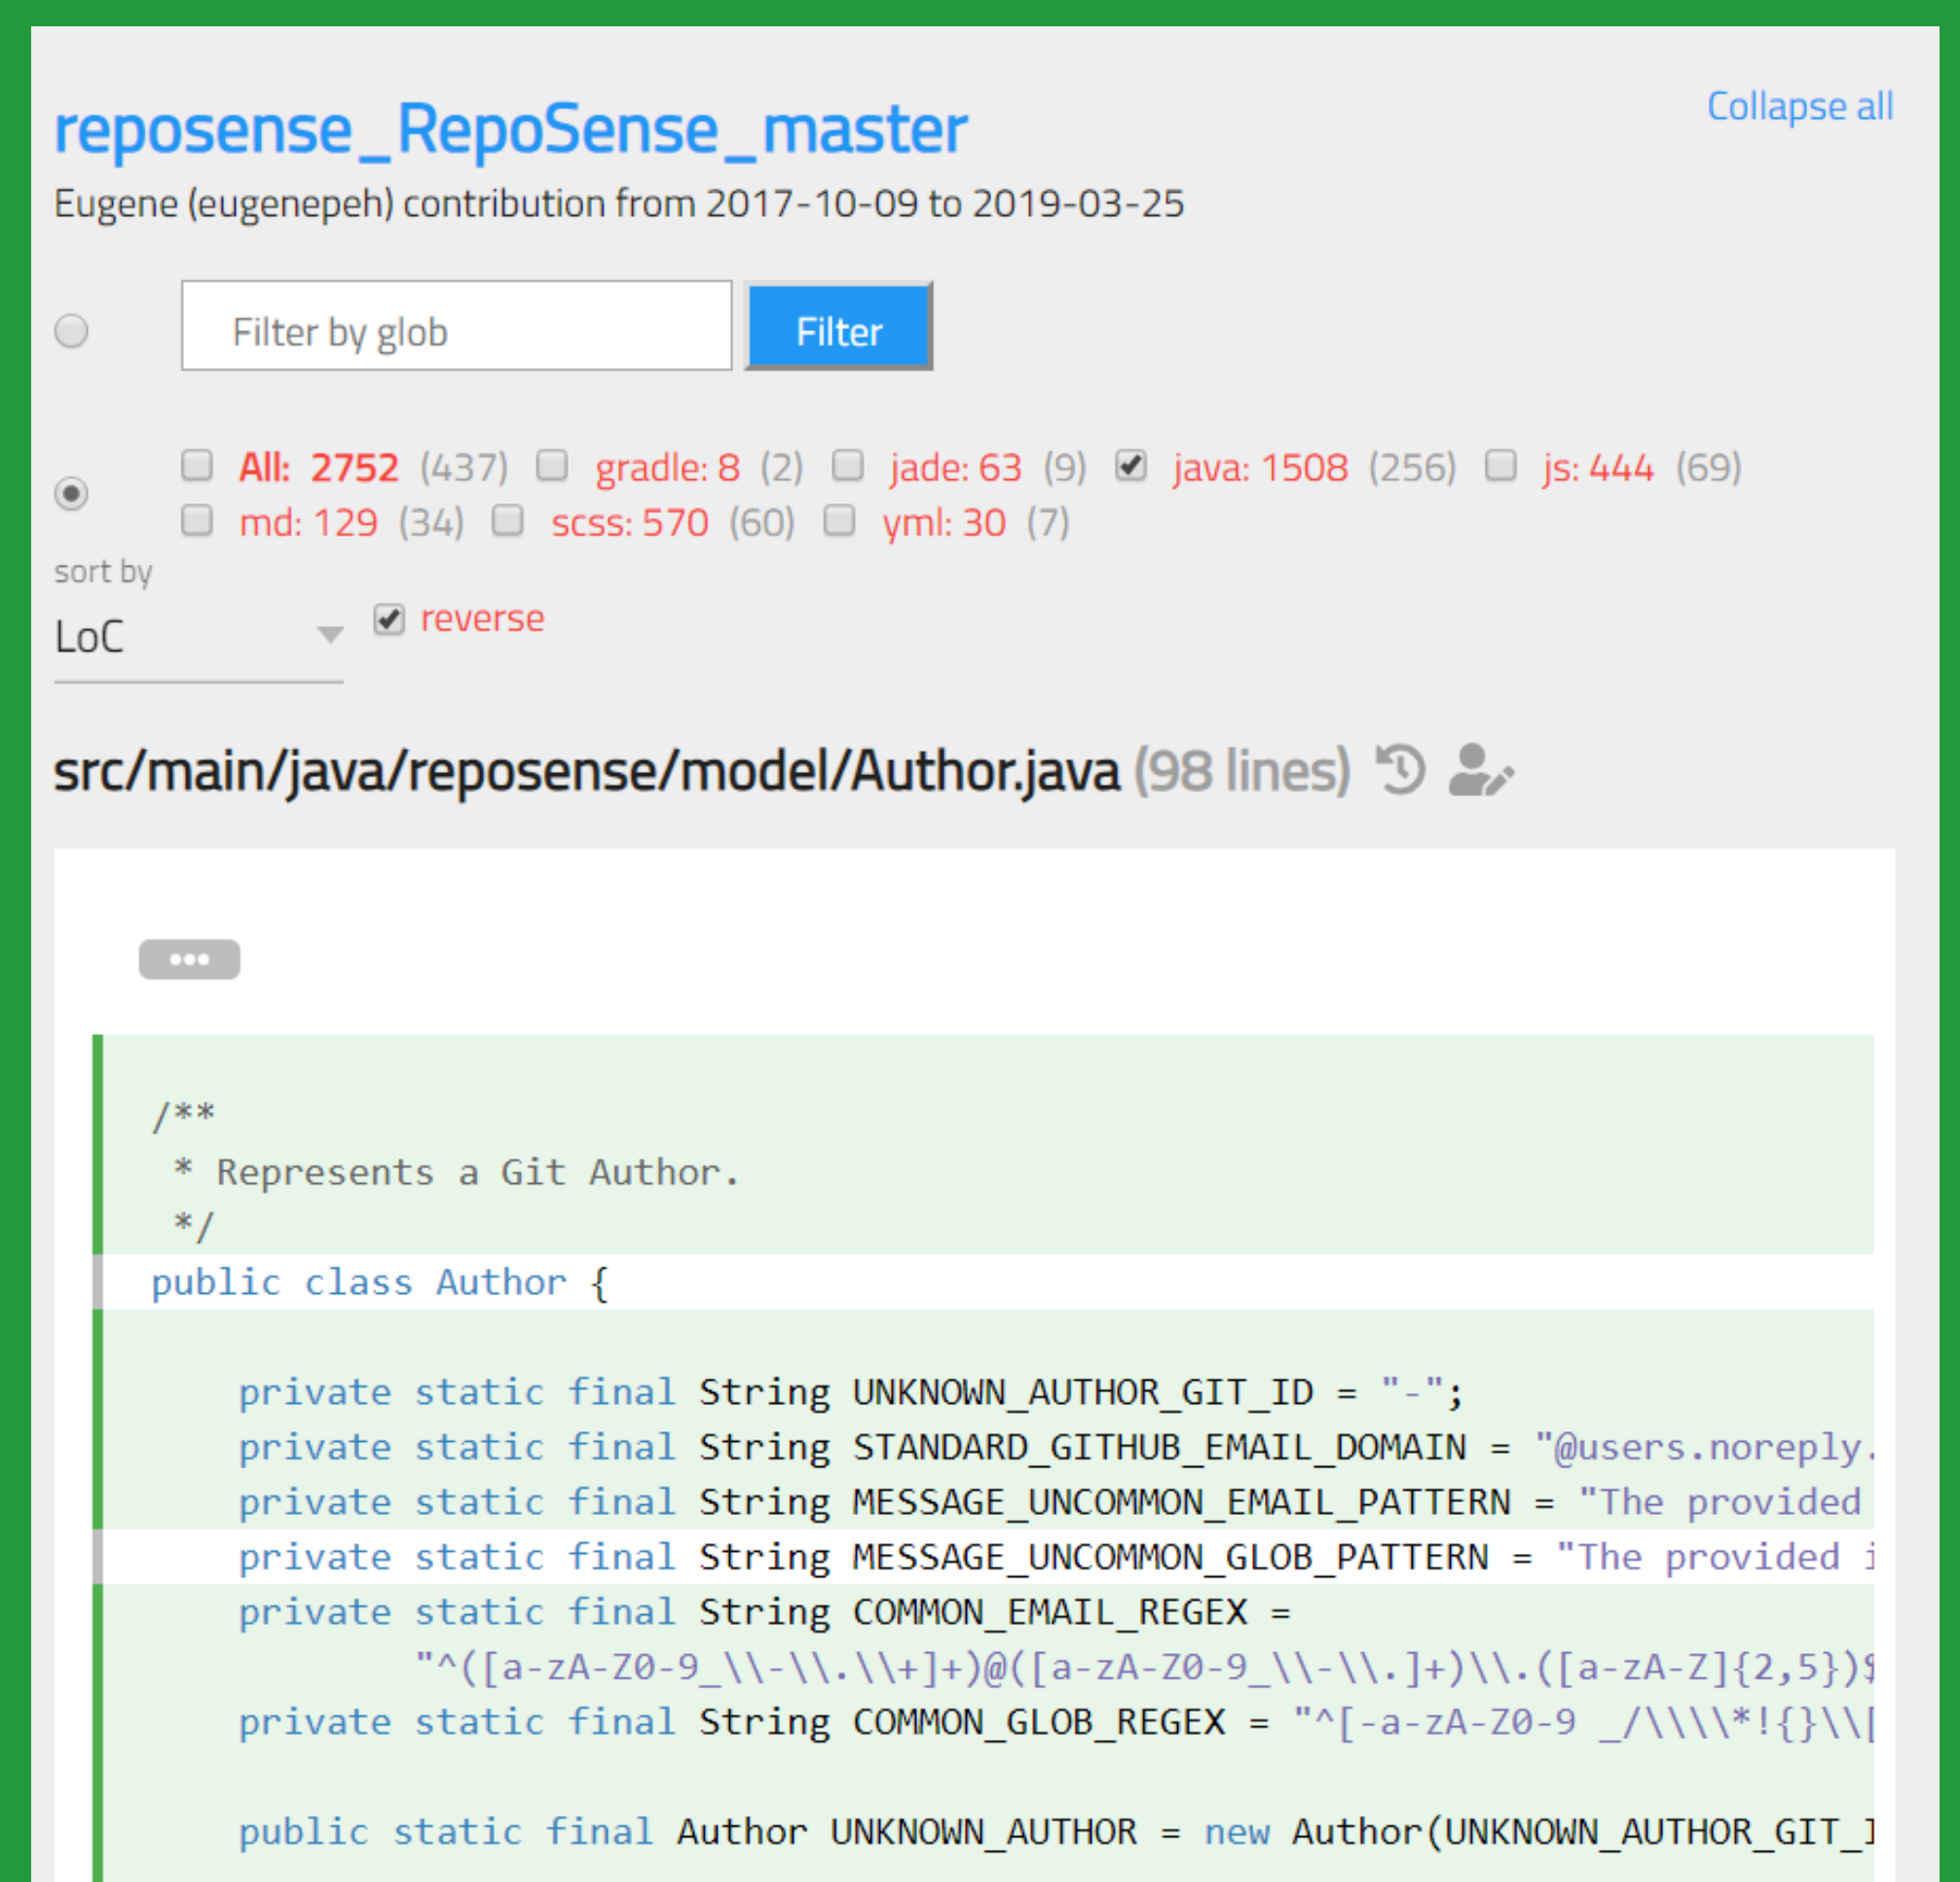

2. Use the report to get insights

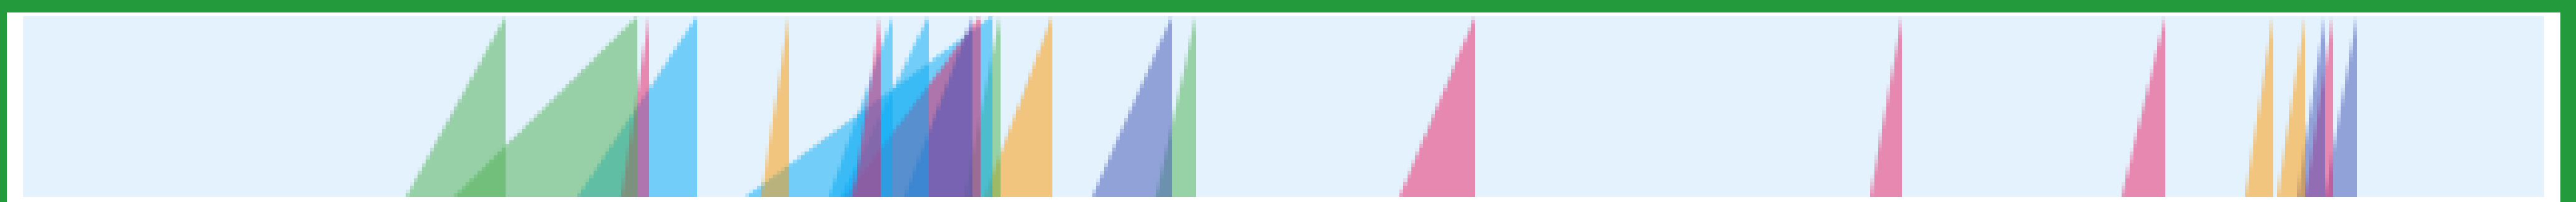

Visualize contributions timelines of multiple contributors across multiple repositories

Review code contributed by a specific contributor

Triangle size → Size of the contribution, Triangle frequency → Contribution frequency

Contribution bar length → Total LoC contributed

Used by multiple NUS modules

- ✓ 100+ Git repositories
- ✓ 500+ students

Available at <https://RepoSense.org>

Developed as an OSS project
(Java, JavaScript, HTML, CSS)

Team: Chelsey Ong, Gilbert Emerson,
Ong Shu Peng, Wang Chao

Mentors: Eugene Peh, Tan Jun An, Teng Yong Hao
